REHAB - CAMERON FRANCIS

Price: £14.99.

Cameron Francis has created one of the most workable and visual Torn and Restored Card effects to date. Filmed in the same location as The Omega Mutation, Cameron explains in detail his handling of this amazing card effect. It's not as difficult as it looks either! If this is not enough for you then five more bonus effects are also included on the DVD for you to get your teeth into. Great value. **PS**
